Bobs Break Room

By; Reed Hurrey

As another year rolls in, Bob's Break Room opens to the students of CTC. With all new items including their delectable bagels which come at the price of only \$2! So little for so much! It's also great how you don't have to have it plain, you could get any assortment of jellies and cream cheese.

Bob's Break Room bagels are bursting with boosterish flavor. That aside, Bob's Break Room has seemed to have a total revamp, going from drab to fab. Though some décor can be questionable, it is a great change to the store and hopefully brings in the money.

Freshmen.....and women!

Freshman Experience

As the next year rolls around, we're greeted with new students, mostly freshmen. With freshmen comes their struggle of transitioning from middle school to high school, learning the long road of becoming an adult and the new challenges presented to them. We surveyed a few freshmen, asking them about Tech and their experiences here so far.

Their experiences here so far have been great, finding the school a much better place than their previous schools. Many believed that both teachers and students here were kinder, some commenting how the teaching style of most of their teachers here more useful and helpful. Though it may be contributed to the smaller class time, as almost all commented on how classes were much shorter than their previous schools. Though a few students have found that it is a much better way to be more organized this way and have a more consistent schedule.

Tech, as we all know, is much different from other schools in the sense that we have workshops here which cover a variety of different fields. The freshman we interviewed thought the shops were a great idea as they thought it helped gained job experience and job opportunities in the future. Aside from shops, we found the new students with transitioning from middle school to high school had very different experiences thus far. Some believed the work to be easier in high school, while others saw it as harder. Though they could all agree that the lack of dress code was very much welcomed by all participants.

Freshmen here still have a long way to go, but hopefully they can make it to next year.

Abby's Drama Corner

The Wyoming Area Drama Club is back! On November 17th and 18th at 7pm and November 19th at 2pm, the Wyoming Area Drama Club proudly presents Boeing Boeing. The Drama club advises not to bring children under 14 years old. The play is at the Wyoming Area Secondary Center in Exeter. The tickets cost \$8. On November 29th, 30, and December 1st we are going to York for the Drama Club Convection. I will be selling candy again after Christmas for the New York City trip to see a Broad way play. Last year we saw Waitress and it was amazing. I hope we can either see Charlie and the Chocolate Factory or The Harry Potter play Cruised Child this year. We heard that last year they where building a theater just for the Harry Potter the Cruised Child. Last year I saw the outside of the building for Charlie and The Chocolate Factory and it was amazing. It had pipes of chocolate leading in and out of the building. For the play Boeing Boeing it's about a guy who is engaged to 3 plain stratus, but his old friend who a women comes to visit him and he ends up liking her too. I hope you come and see and also enjoy the show.

Now That's a Gym!

By: Larissa Grady

West Side Career and Technology Center recently completed renovations on the gymnasium for the 2017/18 school year. The basketball court was resurfaced with brand new logos and colors. Automated bleachers were installed which allows them to extend and collapse with the turn of a key. West Side Career and Technology Center is an educational option for students from Wyoming Area, Northwest, Lake Lehman, Wyoming Valley West, and Dallas.
